Goodman Consulting, LLC  
Senior Partner, Owner  
Curriculum Vitae for Umpire Service

**GOODMAN CONSULTING**  
ROOFING & CONSTRUCTION DEFECT EXPERT

## Current Employment

2017-Present

The Construction Defect Expert, LLC/ Goodman Consulting, LLC

### Senior Partner

Construction defect consultations ranging from deposition-assist, identification & documentation of defective construction/materials, roof inspections, waterproofing assessments and advisement, thermal imaging/air intrusion/moisture intrusion identification, and general expert witness testimony and reporting. **Impartiality:** I spend about half of my time working for carriers, and the remainder working for general contractors, subcontractors, and property owners. For litigated cases, I regularly work for both plaintiff and defense.

### Civilian:

Direct retail, private, and insurance claim estimating and project production for all types of roofs. Holds certifications in all major roof installation types, as well as certifications in damage assessment for all roof types. Assists architects, large loss adjusters, litigators, and general contractors in damage assessment, remedial scope specification, applicability of locally adopted code, assessment of general conditions related to execution of construction projects, and specification of installation/waterproofing details for both new and existing construction.

### Government:

Responsible for bidding projects, job procurement, e-verifiable labor retention/employment, shop drawings and detail specifications, OSHA and ANSI safety compliance/standards for equipment use, fall safety training, equipment operation training, operation of heavy equipment, quality assurance, and inspections process.

## Examples of Appraisal Experience (a selection)

- Gowens Residence, Appraisal for Slate roof. Position: Appraiser.
- Central Church of Nazarene, Tulsa, composition shingle failure. Position: Appraiser
- Ultimate Roofing, earthquake damage advisement. Position: Umpire
- Cutler Residence, Ada, Umpire for shake roof claim. Position: Umpire
- Wilfong Residence, Kingfisher: Tile roof appraisal consult for AFR Insurance. Position: Appraiser
- Current active cases: 38.

As an independent building consultant with a large emphasis placed on experience and education in roof coverings, waterproofing, and storm/water loss damage assessment, we are uniquely qualified to serve in the insurance carrier appraisal process. We have a good working knowledge of the appraisal process. Estimating, where needed, can be done in Xactimate. Policy interpretation, when

needed, can be done by Paul or by our full-time licensed staff insurance adjuster. Our office has produced over assessments and insurance scope of work summaries for claims due to losses from peril, and are able to bring this robust experience and skill set to bear as an appraiser or umpire. We thoroughly enjoy settling disputes and shedding light where needed.
